Certification:

EN ISO 374-1:2016/TYPE B (KPT), EN 374-5:2016

Description

The 3.2 mil Nitrile Coating Disposable Gloves HS501 (<https://karamonline.com/nitrile-coating-disposable-gloves-hs501>) are designed for reliable protection and enhanced tactility in industrial environments. Made in a vibrant blue color for improved aesthetics, these ambidextrous gloves can be worn on either hand. The textured finish on the fingers enhances grip, ensuring secure handling of tools and materials. Featuring a beaded cuff for added durability, these gloves reinforce the edge to prevent tearing, making them easy to put on and ensuring long-lasting performance.

Warranty: 1 year from the date of invoice against any manufacturing defects.
