Ear Muffs Classic

SKU: EP21

Key Features

Soft cushioned pads ensure a secure noise-blocking seal.

Durable ABS ear cups for lasting performance.

Ultra-lightweight design for maximum comfort.

Three adjustable positions for a tailored fit.

Certification:

EN 352-1:2020

Description

The EP21 Classic Ear Muffs are designed to provide superior noise protection in high-noise environments such as airports, excavation sites, generator rooms, and high-frequency welding operations. Featuring a lightweight and comfortable design, these ear muffs ensure all-day wearability. The soft cushioned pads create an excellent seal against noise, while the three-position adjustable headband offers a customized and secure fit for every user.

Warranty: 1 year from the date of invoice against any manufacturing defects.
