EN 388:2016, EN 407:2020

Description

Introducing the Frontier Split Leather Grey Gloves FT811(P)(GY)(14), featuring premium split leather for superior protection. Designed with a welted joint, these gloves enhance strength and durability, minimizing tearing during tough tasks. The wing thumb and gunn cut provide excellent dexterity, while the gauntlet cuff offers a secure fit. With heat resistance up to 100°C for 15 seconds, these gloves are ideal for welding, metal fabrication, material handling, maintenance, construction, and smelting. Certified to EN 388:2016 and EN 407:2020, they deliver reliable safety and comfort for demanding work environments. An economy version is also available (Ref: FT811(GY)(14)).

Warranty: 1 year from the date of invoice against any manufacturing defects.
