Description

Introducing the Frontier Split Leather Grey & Green Gloves FT832(UL)(GY)(10.5). These gloves are made from high-quality split leather, featuring double palm leather for superior protection and durability. Lined with jersey fabric for comfort, they offer excellent flexibility and abrasion resistance. The rubberized cuff enhances security, while the wing thumb design allows for increased dexterity. Certified to EN 388:2016, these gloves are ideal for construction, metal operations, machinery handling, manufacturing, metal grinding, gardening, and carpentry work. Experience reliable protection and comfort for a wide range of demanding tasks.

Warranty: 1 year from the date of invoice against any manufacturing defects.
