Description

Introducing the Frontier Split Leather Grey Safety Gloves FT831(UL)(GY)(10.5). Crafted from high-quality split leather, these gloves feature a single palm leather design for enhanced protection. The jersey lining ensures comfort, while the rubberized cuff adds an extra layer of security. With excellent flexibility and abrasion resistance, the wing thumb design allows for greater dexterity. Certified to EN 388:2016, these gloves are perfect for construction, metal operations, machinery and equipment handling, manufacturing, and metal grinding tasks. Equip yourself with reliable protection and comfort for demanding work environments.

Warranty: 1 year from the date of invoice against any manufacturing defects.
