KARAM

HPPE / Glass Liner with Natural Latex Coating

SKU: HS68

Key Features

- Has a high abrasion, puncture and tear resistance due to its more dense construction.
- Made of unique black and white mélange combination for better aesthetics.
- Natural rubber palm coating with crinkle finish

Certification:

EN 388:2016

CE

Description

The HPPE / Glass Liner with Natural Latex Coating HS68 (https://karamonline.com/hppe-glass-liner-with-natural-latex-coating-safety-gloves-hs68) is designed for maximum protection and durability. Its dense construction offers high resistance to abrasion, punctures, and tears, making it ideal for tough work environments. The glove features a unique black and white melange combination for enhanced aesthetics, ensuring both style and function. A natural rubber palm coating with a crinkle finish provides superior grip, even in wet or slippery conditions, while ensuring comfort during extended wear. Perfect for heavy-duty tasks, this glove delivers long-lasting performance and excellent protection in challenging industrial applications.

Warranty: 1 year from the date of invoice against any manufacturing defects.
