Description

The exclusive range of flame resistant protective workwear specially designed to protect the wearer from injury due to flames when exposed to flammable chemicals, solvents and arc flash hazards. Made from inherent FR fabric, this lightweight flame resistant garment offers great protection where there is a need for clothing with limited flame spread properties and where the user is exposed to contact with flame (Code A), convective heat (Code B), radiant heat (Code C) and contact heat (Code F). The range is equipped with multi-functional pockets along with three stitches over locked seams with elasticated waist for best fit. Stitched with FR thread, the range offers durability with compliance. Also, available with high visibility reflective tapes offering 360-degree reflectivity.

Size Chart-Body Dimensions		
	A	B
Garment Size	Body Height (cm)	Chest Width (cm)
S	164-170	84-92

M	170-176	92-100
