Safety Helmet with Protective Peak with New Slider Type Nape Adjustment and Ventilators

SKU: PN541(NS)

Key Features

Dual corrugation.

Made up of polypropylene co-polymer.

New slider type nape adjustment to suit most head sizes.

Increased vertical clearance for optimum shock absorption.

Extended nape for extra impact protection to the user's neck.

Has ventilated slots which can be opened / closed with the help of a shutter to prevent any rainwater seepage.

It comes with improved electrical insulation proof voltage test of 5kV and withstands voltage test of 10kV).

Certification:

EN 397:2012+ A1:2012, EN 50365:2002

Description

Engineered for superior head protection, the PN541 (NS) features a dual-corrugation shell made from high-strength polypropylene co-polymer, ensuring maximum durability and impact resistance. Its new slider-type nape adjustment offers a secure and comfortable fit for most head sizes. Designed with enhanced vertical clearance, it provides optimum shock absorption during impact. The extended nape offers added protection to the neck, while ventilated slots with adjustable shutters allow air circulation and prevent rainwater entry. Additionally, it delivers excellent electrical insulation, successfully passing a 5kV proof test and withstanding up to 10kV, ensuring complete safety in electrical

Warranty: 1 year from the date of Invoice against any manufacturing defects
